The Art of Refinishing.

High Quality German Products.

Certification for Experts.

Master The Art of Refinishing.

As an automotive repair professional, you know you're facing greater challenges than ever before. New advances in auto body materials, paint products and application techniques are increasing the need for up-to-date certification.

At Standox we understand these trends. We are committed to offering leading edge certification programs, paint shop management programs and a comprehensive range of products and services. Combined with these, our team of industry professionals help you Master The Art of Refinishing.

Meister Technican Training Certification

Standox Technical Training introduces an exclusive for the true "Master Technician." You will experience new products, proper system selections, paint chemistry, gun selection and process techniques all in a hands-on environment. This is truly for the refinisher that understands "The Art of Refinishing."

Learn in a Quality environment.

Standox Technical Training Centers provide class participants with the opportunity to work in a hands-on learning environment with the very latest equipment, including: downdraft spray booths with Waterborne drying and baking capabilities, infrared dryers, UV technology and a full range of Standox color tools. The result is higher quality certification for experts and an increased quality refinish repair.

Work with future oriented Standox products.

Standox delivers high-quality German refinish products including compliant Waterborne Systems for maximum quality performance and reputation. Standox Technical Training allows you to experience both classroom and practical applications with their complete range of products.

Qualify for our Standox Lifetime Warranty.

Standox offers one of the most versatile and extensive warranty programs in the collision repair industry. By completing Standox Technical Training courses and meeting lifetime warranty program requirements, your collision center can become certified to offer your customers our exclusive Standox Lifetime Warranty. It's your commitment to quality.

Earn I-CAR points and OEM Accreditations.

As a member of the I-Car Industry Training Alliance, Standox Technical Training can offer you the ability to earn valuable I-Car Gold Class Points for successfully completing selected training programs. These points apply to both the Gold and Platinum individual programs. Standox certification programs are also recognized to meet OEM accreditations to perform warranty work.

Get Certified.

Standox Technical Training facilities are conveniently located throughout the United States and Canada. Multiple packages are available to make training easier to attend. Exclusive training opportunities are also available.
